Luxembourg, Warsaw, Zurich – 31 October 2009. With great sadness, the ITI Group informs about the loss of Jan Wejchert, the Founder, Visionary and Entrepreneur of the ITI Group. Jan Wejchert tonight unexpectedly passed away following a heart failure caused by a bacterial infection and sepsis, which lead to an overreaction of his immune system. Jan Wejchert has been fighting a long battle against leukemia, which was first diagnosed in 1993. In 1996 and 2006, he underwent two major chemotherapies and auto transplants.

Jan Wejchert was one of Poland's first private entrepreneurs and founded the ITI Group in 1984. Together with his business partners and close friends, Mariusz Walter and Bruno Valsangiacomo, Jan Wejchert created, led and developed the ITI Group into Poland's and Central and Eastern Europe's premier media group. Jan Wejchert's vision and belief that each of the ITI Group's business activities should be a market leader and best in class operation has come to life and through TVN, Onet, 'n' and Multikino are known to every Pole.
